

COMMERCE AND FINANCE

BETHLEHEM AT
HIGHEST POINT

Goes Up to 311 and Crucible
Rises to Quotation
of 89.

CLOSING HAS STRENGTH

Railway Shares Develop Their Share
in Afternoon. Three Issues Advancing One Point Each.

New York, Aug. 6.—With the exception of weakness in the copper stocks continued strong today with several issues making new high prices. Crucible Steel attracted attention throughout the day by advancing eleven points to the new high record of 89, closing within 14 of a point of the top.

The fall of Warsaw failed to have any appreciable effect on the market, although prices were irregular at the opening. By the end of the first hour a strong tone developed throughout the list, with steel in demand. Bethlehem Steel made its usual daily record and touched 311. Railroad shares developed strength in the afternoon with Southern Pacific, St. Paul, Southern Railway and Reading the favorites and advancing about a point each.

Steel Scores High Point.

Steel scored a new high price for this movement on expectation that the statement of unfilled orders for July to be published next Tuesday would show an expansion in business of from 10,000 to 20,000 tons.

Those doubting Thomases who have been decrying the rise in Crucible Steel forced to keep their tongues in their cheeks today when the stock rapidly rose 11 points to the new top of 89. When the issue suddenly dropped in the last half hour from the high point to 84 the doubting ones plucked up courage to reiterate their declaration that the shares would break wide open, but their tongues were soon silenced by a rapid recovery that carried the price to 85, or 1-2 a point above the eleven from which it broke.

Whiskey stocks were steady in the late afternoon, U. S. Industrial Alcohol rising more than five points and Distillers 1-1/2 points.

LANSTON STOCK HAS BIG DAY.

Highly Shares Sold at Seventy.

Capital Traction Drops. Eighty shares of Lanston stock were transferred on the local exchange yesterday at 70, an advance of nine points for the week. During the week 400 shares have been traded, ranging from 61 to 70. Approximately 81,000 shares have been sold at \$1.12, a gain of 63 and 61-1/2. The advance has been due to the placing of war orders with the company.

Capital Traction during the week has dropped about three-quarters of a point from the high. An odd lot brought \$91.4. Railway common is off half a point, having been the last day. Railway 4s remain at 81. Five hundred dollars worth of bonds was sold at \$1.12. Capital Traction as remained steady at 106.

GOVERNMENT BONDS.

Furnished by W. B. Hibbs & Co., High, Low, Close, Bid, Asked.
